

## **Proposal to change Duo to accommodate multiple sources**

Submitted by John Rademacher, Madison West, on behalf of the Category Committee

### **Summary:**

Change single source in Duo to allow multiple sources.

### **Rationale:**

Duo specifically states that the published material used be from “a single source,” unlike any other interp category. This limits the use of shorter works like poems.

### **Proposed change to Duo Interpretation**

*[strike “a single source of” from rule 1.]*

1. From memory, two students present ~~a single source~~ of published, quality literary material that includes any number of characters.
