

Proposal to eliminate another speaking stand reference and center stage requirement from Group Interp:

Submitted by John Rademacher, Madison West, on behalf of the Category Committee

Summary: Eliminate another speaking stand reference and center stage requirement from Group Interp

Rationale:

We don't use reading stands in forensics. There is no reason to begin in any specific place, especially since there may be up to five presenters.

Proposed change to Group Interp

Remove the sentence: "The use of a reading stand is permitted but not required." from 1.

Remove the sentence: "The presentation must begin from center stage." from 2.
